“Excellent speaker who synthesized the recent data, and in context, discussed side effects management –very practical.”

– Best of ASCO Attendee

“Well done, again. Love the quick moving, full of information format.”

– Best of Oncology West Attendee

“Complicated [topic] with new, practical and changing data presented clearly.”

– Best of Oncology East Attendee

THE EDUCATIONAL RESOURCE FOR ONCOLOGY PROFESSIONALS

OncologyEducation.com is a comprehensive resource providing evidence-based educational content exclusively developed and authored by a leading international Faculty of oncology physicians. All content focuses on presenting timely, unbiased information for the oncology community, including oncologists and other related specialists, physicians, nurses, pharmacists, students, residents and researchers.

OncologyEducation.com resources are updated regularly and include reports on recent advances in literature and clinical trials, conference updates and presentations, and disease-specific information, all of which are delivered through integrated online and mobile platforms.

Accredited Continuing Medical Education (CME) events are hosted several times a year throughout the world and online, and focus on the latest scientific information for improvements in standards of care in cancer management and treatment.

OncologyEducation.com was envisioned and established by Dr. Sunil Verma and Dr. Scott Berry in 2007. Dr. Verma is an associate professor at the University of Toronto and the Chair of Breast Medical Oncology at the Sunnybrook Odette Cancer Centre. Dr. Berry, a medical oncologist, Chairs the Gastrointestinal Disease Site Group at the Sunnybrook Odette Cancer Centre and is an associate professor at the University of Toronto.

Since its inception, the OncologyEducation.com audience has grown considerably, thanks to our growing social media network. OncologyEducation.com has close to 6,500 registered members, more than 2,000 Facebook fans, and nearly 2,000 Twitter followers. We feature monthly online webinars with expert commentary which are then archived on our site and have received some of the most viewers of any resource on our site. These online events cover a wide range of tumour sites and meet the needs of our audience in Canada and internationally.
