The Société Internationale d'Urologie (SIU) is the only truly international medical society serving urologists, trainees, and affiliated healthcare professionals. Founded in 1907, the SIU now brings together more than **13,000 members** from over **130 countries**, representing a spectrum of sociopolitical and practice settings in our membership and activities. It is through this diverse representation that the Society is able to provide unique and valuable offerings in education, research, networking, and philanthropy to urologists everywhere.

In the face of increasing digital connectivity, the SIU continues to explore and develop innovative solutions to connect and engage our international community.

The SIU connects urologists around the world through its:

- Annual Congress and intuitive virtual congress platform, *SIU@U*;
- eLearning portal, *SIU Academy*[®] — an extensive library of educational programmes and a hub for live virtual events;
- Open-access and free academic journal, *SIUJ*;
- Training scholarships, tailored programming for trainees and young urologists, and collaborative philanthropic activities;
- Research platform, *uCARE*, powered by a global council.

THE SOCIÉTÉ INTERNATIONALE D'UROLOGIE IS DELIGHTED TO HOST OUR 44TH ANNUAL CONGRESS AT THE YASHOBHOOMI (IICC — INDIA INTERNATIONAL CONVENTION & EXPO CENTRE), DWARKA, NEW DELHI, INDIA, FROM OCTOBER 23–26, 2024.

SIU 2024 will welcome over **3500 urologists** from around the world to learn, network, and experience leading-edge developments in the field.

In addition, we anticipate over 1500 urologists and healthcare professionals from across the globe will participate via the SIU's official virtual congress platform, *SIU@U*. Here we will offer live and on-demand access to key sessions, educational videos, live surgeries, and the sixth edition of our **Bench-to-Bedside GU Cancers Triad Meeting**, which will be held on **October 25**.

The scientific programme will feature world-class scientific content such as the Surgery Day on October 24, controversies in urology, training workshops, master classes, master video and interactive sessions, and symposia focusing on innovation and advances in urology.

To our long-standing partners, your support has been invaluable in making the SIU's Annual Congress a meeting that is highly valued by urologists around the world, and we appreciate your ongoing partnership. To our new and prospective partners and exhibitors, we look forward to connecting with you and working together to make SIU 2024 a positive experience for your organization.

We invite you to browse the wide array of partnership opportunities that can help you connect with our growing community in a way that is tailored to your organizational objectives. We trust that, within this document, you will find everything required to put together a customized presence for your company on this exceptional world stage.

SUPPORT AN ACCREDITED SYMPOSIUM AT THE SIU'S 44th ANNUAL CONGRESS

Accredited symposia are an essential part of the SIU's Annual Congress. They offer the expertise and latest research of key opinion leaders to enhance participants' educational experience. At the same time, the SIU provides an opportunity for interaction and feedback among peers.

Top reasons to host an accredited symposium:

- Educate an international audience of urologists
- Transfer knowledge from research to practice
- Highlight thought leaders
- Reach clinical decision-makers

Luncheon Symposium €50,000

Afternoon Symposium €35,000

Above are subject to applicable taxes.

SYMPOSIUM PACKAGE ELEMENTS:

1

Topic-exclusive,
75-minute timeslot to
hold a CME-accredited
luncheon symposium

OR

2

Topic-exclusive,
60-minute timeslot to
hold a CME-accredited
afternoon symposium

- Live transmission and capture of your symposium on our virtual Congress platform. This allows Congress participants to attend the symposium online if they are not able to be there in person. Following the Congress, your symposium will be hosted on SIU Academy, the SIU's eLearning platform
- A one-page PDF programme outline will be created in conjunction with content development and made available by October 15 as well as placed on the virtual Congress app
- Room rental and setup, including audio-visual equipment
- SIU medical oversight to develop the symposium programme
- Full payment of faculty costs will be handled by the SIU
- To ensure all SIU delegates are provided with information regarding all sessions, the SIU will provide online listings in the following: Congress website, broadcast programme, partner activity guide, and Congress mobile app
- Recognition of your Corporate Sponsor or Congress Contributor support on-site, on the Congress website, and on the Congress mobile app
- One complimentary Exhibition Booth of 9 m² (3 m x 3 m), space only; priority selection by Corporate Sponsors and Congress Contributors; space allocated on a first-come, first-served basis

CONGRESS EDUCATIONAL OPPORTUNITIES ACCREDITED SYMPOSIA *cont'd*

The SIU surveys its members regularly to assess their educational needs to guide the development of educational sessions, and selection of symposia and studio session topics and titles, and learning objectives, and faculty. Symposia sessions address the perceived and unperceived learning needs of our members. The following educational needs have been identified among SIU members in a recent survey:

URO-ONCOLOGY

Management of Urological Cancers in 2024	Current practices and recent developments in the diagnosis, surgical and systemic treatment, and management of treatment-related adverse events in prostate cancer, bladder cancer, and kidney cancer
Immunotherapy in Uro-Oncology	Biologic basis of cancer immunology, emerging immunotherapies in uro-oncology, and management of immunotherapy-related adverse events
Molecular Genetics of Cancer and Personalized Medicine in Uro-Oncology	Research advances in molecular biology of cancer and the development of novel targeted therapies in uro-oncology
Hot Topics in Uro-Oncology	Cutting-edge research and emerging trends in the management of genitourinary malignancies, including novel imaging technologies and biomarkers to guide treatment decision-making

NON-ONCOLOGY

Stone Disease and Endourology	Advances in the pharmacological, surgical, and minimally invasive procedures for the management of urinary stones
Trauma and Reconstructive Urology	Perioperative care and surgical treatment of male and female urinary strictures, as well as other injuries/trauma of the genitourinary tract
Lower Urinary Tract Dysfunction	Advances in medical, surgical and minimally invasive treatments for benign prostatic hyperplasia (BPH)/benign prostatic obstruction (BPO)
Diagnostic Urology	Advances in imaging, artificial intelligence, and visualization platforms for the diagnosis of urological conditions
Reproductive and Sexual Health	New trends in diagnostic evaluation and medical and surgical management of erectile dysfunction and male infertility in 2024
Robotics and Minimally Invasive Surgery	Novel devices, instrumentation, and techniques changing the landscape for urological surgeries

If you would like more information or wish to make a symposium submission, please contact: Lillian Petrusa, Director, Corporate Development, at lillian.petrusa@siu-urology.org by **May 15, 2024**.

AVAILABLE SYMPOSIA TIMESLOTS* – CME-ACCREDITED

Thursday, October 24	12:30–13:45	€50,000 [†]
	15:30–16:30	€35,000 [†]
Friday, October 25	12:30–1:15 SOLD	€50,000 [†]
	16:00–17:00	€35,000 [†]
Saturday, October 26	13:00–14:15	€50,000 [†]
	16:00–17:00	€35,000 [†]

*Times subject to change based on the final Congress programme schedule.

[†]Includes full payment of faculty costs.

All of the above are subject to applicable taxes.

TRAINING WORKSHOPS.....€7,500/course

Above subject to applicable taxes.

Includes:

- Room rental
- Audiovisual equipment
- Announcement of the session on the Congress website and the Congress mobile app
- Assistance with course promotion, registration, and on-site logistics
- Post-event support with course evaluations, certificates of attendance, and presentations
- 9 m² of exhibit space (bare space only)
- Acknowledgement as a Congress Contributor on-site, on the Congress mobile app, on the Congress website (in the Sponsor Acknowledgements tab), and in the Partner Activity Guide

Sponsor to provide:

- Staff and equipment as per Programme Chair recommendations

WORKSHOPS:

PROSTATE MRI READING AND FUSION BIOPSY WORKSHOP

This course will take you through an in-depth overview of the basic principles of multiparametric MRI (mpMRI) as well as current applications of MRI-US fusion-guided biopsies. The workshop part of the course will give participants insight into the interpretation and application using MRI-US fusion imaging and how to apply it to their practice. Our renowned faculty will share the latest advances and debates in this emerging field.

Learning Objectives:

At the end of this course, participants should be able to:

- Describe the basic principles of mpMRI of the prostate
- Develop a basic foundation for interpreting multiparametric MR images of the prostate
- Explain the basic concepts of MRI-US fusion
- Recognize the limitations in MRI-US registration and consider metrics for quality control
- Be familiar with various commercial platforms for MRI-US fusion biopsies of the prostate
- Apply MRI-US fusion biopsy techniques to appropriate clinical scenarios
- Implement an MRI-US fusion biopsy program in their routine practice

LASERS AND MISTS IN LUTS/BPH

This course will review novel BPH therapies for office-based treatments of LUTS/BPH, including iTind™, Aquablation®, HoLEP, ThuFLEP, Rezūm™, and UroLift®. The hands-on course will provide practical applications of these technologies in terms of equipment, technical approach, and high-level review of clinical data. The faculty will provide first-hand practical instruction on best practices, including patient selection, technique selection, and tips and tricks. The faculty will provide international experience and evidenced-based summaries of the risks and benefits of these procedures to aid with patient counselling for informed consent.

Learning Objectives:

At the end of this course, participants should be able to:

- Understand the mechanism of action and technique for each BPH therapy
- Select the most appropriate patient for each procedure type, based on patient and prostate characteristics
- Know the clinical data supporting the use of each modality
- Apply the best-practice technique for each modality, based on the literature and expert opinion
- Recognize the challenges associated with each technique and perform appropriate trouble-shooting
- Practice tips and tricks provided by the experts for executing these novel BPH therapies

BASICS ON ULTRASONOGRAPHY (USG) IN UROLOGY

This course is designed for urologists to acquire an understanding of the basic techniques for performing a USG, become more familiar with the different equipment, and recognize the various applications of USG in urological care. The course includes didact tutorials, equipment demonstrations, and hands-on exercises using phantom models to provide participants with an immersing training experience on the basics of USG for upper renal tract, lower urinary tract, and transrectal evaluation.

Learning Objectives:

At the end of this course, participants should be able to:

- Operate a USG machine
- Recall the basics of USG imaging for upper and lower urinary tract urological conditions and diseases
- Recognize the technique for transrectal USG and its diagnostic applications
- Detail the steps for performing a transrectal prostate biopsy under guidance
- Recall the basics of USG Doppler

ROBOTICS – TIPS AND TRICKS FOR BEGINNERS

This course is intended for urologists in their first 100 robotic surgery cases using the DaVinci Si and Xi platforms. This course incorporates video, specific case discussions, and diagrams based on experience, and is presented by urologists with more than 1,000 cases.

Learning Objectives:

At the end of this course, participants should be able to:

Identify appropriate cases for:

- Docking and trocar placement in order to avoid collision in difficult anatomy patients
- Selecting to use a 0- or 30-degree lens

Demonstrate skills in the following:

- Suturing in a narrow space
- Robotic movements that are uncommon with laparoscopy
- Optimizing instruments
- Managing difficult anatomy (short, obese, hepatomegaly, big and small prostate, medial lobe, adhesions)

LAPAROSCOPY FOR BEGINNERS

This course is intended for the urologist who wants to improve their laparoscopic skills. Participants will take part in hands-on training sessions of increasing difficulty and complexity to develop the basic motor skills required for laparoscopic surgery.

Learning Objectives:

At the end of this course, the participant should be able to demonstrate the following skills:

- Identify constituents of a laparoscopic stack
- Name commonly used laparoscopic instruments
- Carry out basic laparoscopic exercises using a laparoscopic trainer
- Develop basic motor skills for laparoscopic procedures

BASICS IN ENDOUROLOGY (FOR BEGINNERS)

This workshop course will focus on providing the basic training in endourologic instrumentation and technique for beginners. Using a combination of lectures and hands-on skills training, participants will have the opportunity to learn the anatomical principles and essential steps for performing key endourologic procedures: PCNL, and flexible ureteroscopy/RIRS.

Learning Objectives:

At the end of this session, the participants should be able to:

- Recall the anatomical principles involved in PCNL puncture
- Examine the nuances of dilatation in PCNL
- Detail the basic instrumentation and principles for performing flexible ureteroscopy/RIRS

THURSDAY, OCTOBER 24 (11:15–17:15)

LIVE 45–MINUTE PROCEDURE from €15,000*

PRE-RECORDED 20-MINUTE PROCEDURE..... from €7,500*

**Detailed proposal and budget provided upon request.*

Above are subject to applicable taxes.

The Surgery Day programme will showcase state of the art technologies and techniques in various urological subspecialties, including endourology, andrology, focal therapy, imaging, uro-oncology, pediatric and reconstructive surgery. The programme will feature live procedures transmitted in real-time from leading ORs as well as compelling semi-live session with post hoc discussion highlighting novel technologies, instrumentation, and techniques. The Surgery Day will not only offer the opportunity for real-time interaction with surgeons during the procedures,

but will also allow the audience to gain valuable knowledge on how the experts respond to challenging situations in the OR.

Through a comprehensive programme, the SIU Surgery Day will address the educational needs of urologists worldwide by allowing them to update their understanding of cutting edge surgical techniques grounded in evidence-based medicine that may impact local/regional patterns, with the ultimate goal of improving patient outcomes.

Preliminary Learning Objectives:

At the end of this course, participants should be able to:

- Update their knowledge of recent developments in equipment and technique for the minimally invasive and surgical management of urological diseases, based on live and pre-recorded surgical demonstrations
- Acknowledge the role of open, laparoscopic, and robotic-assisted surgical procedures in uro-oncology and reconstructive urology, with respect to new systems, instrumentation, and techniques
- Summarize practical knowledge of instrumentation and techniques for the endourologic treatment of upper and lower urinary tract conditions
- Recognize the role of focal therapy and novel imaging approaches in uro-oncology
- Recall perioperative considerations for optimizing urological surgery outcomes, based on treatment guidelines and expert opinion

Sponsorship Guidelines

The following guidelines enhance your participation while maintaining professional impartiality. They take into account existing guidelines of the EFPIA Code of Ethical Practices, the AIFD Code of Good Promotional Practice, and the SIU's own Guidelines for Relationships With Partners of Continuing Professional Development Activities.

Logos, marks, and/or corporate identifiers used for recognizing SIU 2024 sponsors is limited to "corporate" marks; only parent brands will be accepted. No product logos or marks will be used for recognition. Individual advertising and company booth space, as permitted, may use brand names or product names, marks, or identifiers.

SIU 2024 programme agendas and content are determined by the SIU Scientific Programme Committees, independent of influence from previous or prospective sponsors or their agents.

Industry may not organize any functions involving SIU 2024 delegates that will conflict with any educational sessions or social events. Industry promotions should not interfere with the official programme.

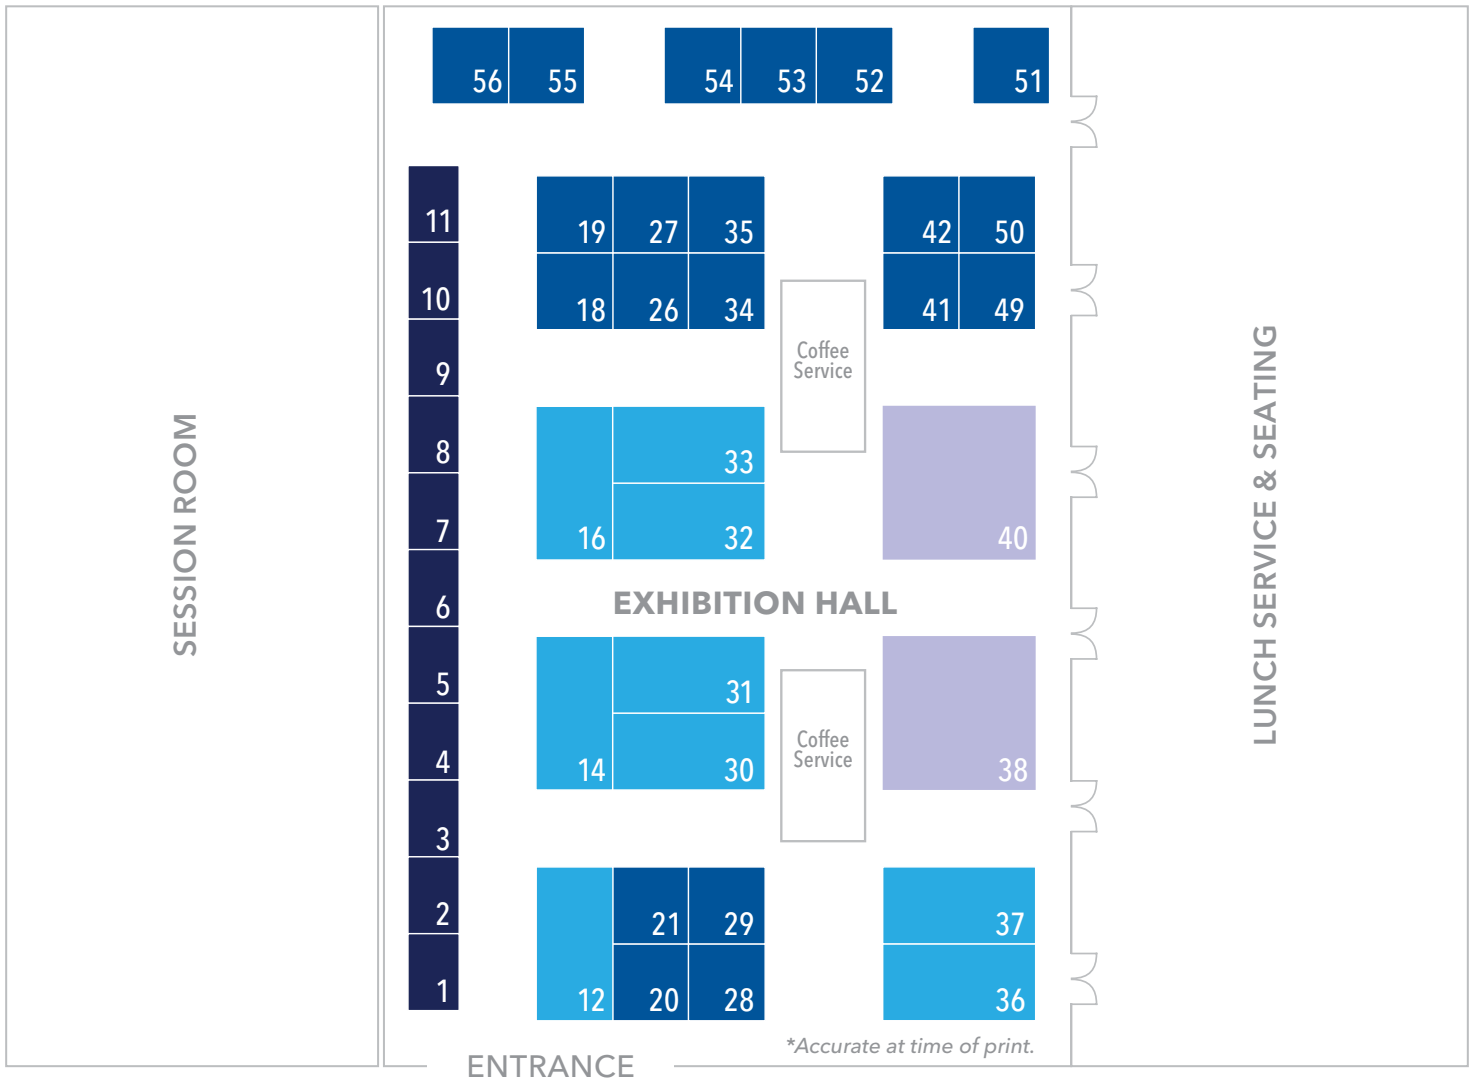

The name and/or logo of SIU 2024 may not be used in conjunction with advertising or promotion of any kind without express written consent from the SIU.

Programme presentations of the SIU may not be reproduced in any form without written consent of the SIU.

Exhibit Floor Plan

Booths may be combined to create a larger footprint.

FRIDAY, OCTOBER 25 (10:00-17:30)

B2B URO-ONCOLOGY: GU CANCERS TRIAD MEETING

PRESENTING SPONSOR.....from €35,000

CONTRIBUTING SPONSORfrom €15,000

Above are subject to applicable taxes.

The B2B Uro-Oncology: GU Cancers Triad Meeting, held in conjunction with the 44th Congress of the SIU, offers an ideal approach to review current clinical research advancements and their applications in uro-oncology. The 6th edition of the B2B meeting will include a high-profile international faculty of experts in various disciplines, providing the opportunity to foster collaborative discussions across specialties.

In this all-day session, held at the Yashobhoomi (IICC – India International Convention & Expo Centre) in New Delhi, our expert faculty from around the world will provide updates on the management of the 3 most prevalent urological cancers (prostate, bladder, and kidney cancers) by emphasizing evolving trends in the early detection of disease, recent results of clinical trials, new therapies, biomarkers, and novel technologies and treatment strategies, including new surgical techniques.

The programme will focus on providing insights and sharing knowledge on best practices aimed at guiding treatment decisions, and ultimately improving patient outcomes.

SIU-ICUD Consultation

SIU-ICUD CONSULTATION: INDIVIDUALIZED MANAGEMENT OF MALE LUTSfrom €35,000

Plus applicable taxes.

Overview:

- SIU International Consultation on Urologic Diseases (SIU-ICUD) aims to promote the improvement in the management of urological diseases worldwide.
- The SIU-ICUD Consultation on Individualized Management of Male LUTS will be published open access as a comprehensive volume on the SIU website and made available on SIU Academy. The recommendations of the SIU-ICUD Consultation will be presented during the SIU Congress in the same year that the Consultation is published.
- Committee Chairs will be invited to prepare a manuscript for submission to the SIU Journal, highlighting the summary of evidence and recommendations from their respective chapter(s) in the Consultation.

Topics to be included in the upcoming SIU-ICUD on Individualized Management of Male LUTS:

- Lower Urinary Tract Symptoms in Men: Definitions and Prevalence
- Patient Assessment
- Benign Prostatic Obstruction
- Nocturia
- Underactive Bladder
- Male Lower Urinary Tract Symptoms and Sexual Dysfunction
- Medical Management and New Therapeutic Targets
- Surgical Therapies and New Treatments
- Outcome Prediction after Therapy
- Therapy Selection
- Persistent LUTS after Invasive Treatment

Andrea Tubaro

Dean Elterman

Stavros Gravas

The SIU welcomes support for the development and dissemination of the SIU-ICUD on Individualized Management of Male LUTS.

Sponsors will be recognized as:

- Society Contributor: on the SIU website, in the uMagazine and the eNEWS
- SIU-ICUD Contributor: on the SIU-ICUD publication

Full proposal available upon request.
