### DEAR COLLEAGUES, DEAR FRIENDS,

On behalf of the European Society for Sexual Medicine (ESSM) and the Society for Sexual Medicine of Czech Republic (CSSM) it is a great pleasure for us to welcome you all to the 22<sup>nd</sup> Congress of the ESSM in Prague, which will be held January 23–25, 2020. For 2020 we needed to make an exchange between Rotterdam and Prague because of other specialty related meetings. Nevertheless, together with our local organizing committee and our PCO we can guarantee you an excellent ambiance and state-of-the art congress.

ESSM family is celebrating our 25 years anniversary and holds the slogan “a grow from basic science to clinical practice” with a holistic, multidisciplinary approach and delivers high standard information from basic and clinical science to clinical practice. ESSM also celebrates its annual congress with up to date science on the latest and most fascinating findings and achievements in Sexual Medicine. The leading experts in Sexual Medicine will share with you how recent research findings may translate into clinical applications and how clinical findings will finally support and enrich your daily medical practice for the benefit of the million sufferers from any kind of sexual problems.

With the long-standing tradition of ESSM our priority of the annual congress is the educational program aiming at training of young colleagues and to intensify the knowledge of advanced colleagues in special topics of interest. In that sense, ESSM builds bridges between the generations. This is what ESSM extremely stands for: the mixture of pioneers and leaders as well as new upstarts in the field of Sexual Medicine is the secret recipe of the permanent success story of the ESSM congresses. The content of the congress will cover topics regarding all sexes and all sexual orientations. State-of-the-art educational opportunities and the newest innovative research will be highlighted. To achieve this, the faculty will include renowned experts and up-coming stars in our field.

Besides an attractive scientific congress program, built by our scientific committee, we will introduce innovative methods of content delivery, facilitate peer-to-peer discussions and networking. Your active participation and involvement in some of the sessions will be appreciated and promoted.

The Local Organizing Committee will strive to make the importance of the congress evident to the scientific and health care authorities and welcomes you with warm hospitality and nice atmosphere.

Prague, capital city of the Czech Republic, is the home city of more than 1.5 million people. Prague has been a political, cultural and economic center of central Europe complete with a rich history. Nicknamed as “the City of a Hundred Spires,” it is known for its Old Town Square, the heart of its historic core, with colorful baroque buildings, Gothic churches and the medieval Astronomical Clock, which gives an animated hourly show. Completed in 1402, the pedestrian Charles Bridge is lined with statues of Catholic saints. Let this lively city seduce you, enjoy the authenticity of the old town with its many squares and monuments. Prague is a very popular city, it is the fourth most visited European city after London, Paris and Rome. That this popularity is completely right, you should see with your own eyes!

Don't miss this chance of being part of our celebration and join us for another memorable ESSM congress. We look forward to welcome you!
