

Dear Member of the Societie International Urologie

**11th Masterclass of GURS/ 1st Joint Meeting of Adult & Paediatric GUR-Surgeons
Wednesday 1st - Friday 3rd November 2017
UCLH Education Centre, London**

We are back at the UCLH Education Centre! Last year's 10th anniversary at the Royal College of Surgeons of England was a roaring success with an overall satisfaction rating of 4.7 / 5. Unfortunately, we are not able to host the cadaveric hands-on part of the Masterclass this year due to major building works at the RCS.

Starting the 2nd decade of our 'GURS-Masterclass', we thought it's about time that we integrate Paediatric GUR-Surgery! In my humble opinion, we should ask the question who has the greatest experience and technical skill to take care of patients with specific GUR-Surgery requirements, whatever their age!

I cordially welcome our Paediatric GUR-Surgery Colleagues and hope that our common interests will lead to an exciting exchange of experience and ideas, fostering of durable interdisciplinary relationships, and learning from our most eminent colleagues in the field!

We will introduce semi-live video sessions to complement the live-surgery cases so that a wider spectrum of more complex surgery can be demonstrated in the time available.

The Masterclass Programme will be accompanied by a Masterclass 'talking slides & procedures' website, which allows delegates to go back after the event to repeatedly view the live-surgery or videos of particular interest in order to deepen learning.

In addition, for academic GURS news, we will host a peer-reviewed 'e-poster session' on our website.

An informal Canapé reception will take place on the first evening to catch up with friends & colleagues, providing an atmosphere for hopefully making lots of new friends during this three-day event, but we still leave enough room for delegates to have time in the evening to explore the most wonderful cultural life of London!

[Click here to register your place or submit a poster/video abstract](#). For any additional queries, please contact Millbrook Medical Conferences via email: events@millbrookconferences.co.uk or telephone: +44 (0) 1455 552 559.

... hope you can join us in London 1-3 November 2017!

Kind regards,

Daniela Andrich MD MSc FRCS
