Operative Skills in Urology: Modules 3 and 4

This is a modular course, and it is advised that participants have taken modules 1 and 2 prior to attending this course. It is aimed at CT1-2 wishing to pursue a career in urology and those newly into the specialism. Trainees should aim to attend the whole course (modules 1+2 and then 3+4) over 1-2 years.

Course content includes
- The theoretical basis of USS and urodynamics
- The use of USS TRUS and urodynamics equipment including video and ambulatory
- The techniques, indications and complications of diagnostic USS of abdomen, pelvis and scrotum, TRUS of prostate and TRUS biopsies of prostate, flow rate, pressure-flow studies
- The techniques of, indications for and complications of:
  - Vasectomy
  - Frenuloplasty
  - Circumcision

Who should attend?
CT1-CT2 and SAS Grades.
The course is recommended before starting specialist training; however new ST3s are welcome.

Delegate feedback
‘The faculty were enthusiastic, approachable and keen to teach. The urodynamics session was very useful.’ - March 2015

Dates
14-15 April 2016
