Poster Viewing – Wednesday, Oct 16—Sunday, Oct 20
0800–1715

UP-001
Laparoscopic Surgery for Adrenal Tumors: A Single Surgeon’s Experience from 52 Cases
Takaharu Ichikawa, Japan

UP-002
Surgical Management of Pheochromocytoma: Current Indications and Outcomes of Open Surgery
Pradeep Prakash, India

UP-003
Laparoscopic Simultaneous Bilateral Adrenalectomy - Indications and Outcomes from a Retrospective Cohort
Pradeep Prakash, India

UP-004
Impacts of Cerebrolysin on SCI-Induced Neurogenic Bladder Dysfunction in Animal Model
Nasrin Abolhasanpour, Iran

UP-005
The Impact of a New Interleukin-2 Based Immunotherapy Candidate on Urothelial Cells to Support Use for Intravesical Drug Delivery
Oliver Engel, Germany

UP-006
The Effects of a High Sodium Diet on Lithogenesis in an Experimental Rat Model of Renal Calcium Oxalate Stone Formation
Yang Hong, China

UP-007
Renal Zinc Accumulation is Critical for the Protection of Exogenous Zinc Preconditioning Against Renal Ischaemia-Reperfusion Injury
Joseph Ischia, Australia

UP-008
The Role of Short Chain Fatty Acids in Renal Calcium Oxalate Stones Formation
Xi Jin, China

UP-009
Intracavernosal Injection of Platelet Rich Plasma (PRP) Improve Erectile Function in Streptozotocin-induced Diabetic Rats
Chunhou Liao, Taiwan
UP-010
The Effect of Irrigation Power and Ureteral Access Sheath Diameter on the Maximal Intra-Pelvic Pressure During Ureteroscopy: In-Vivo Experimental Study in a Porcine Model
Yasser Noureldin, Greece

UP-011
The Distribution of Paclitaxel in Rabbits' Urethra After Inflation of Paclitaxel-Eluting Balloon: Pilot Experimental Study
Yasser Noureldin, Greece

UP-012
A Systematic review of preclinical studies on therapeutic potential of stem cells or stem cells products in peritoneal fibrosis
Gholamreza Pourmand, Iran

UP-013
A Systematic review of preclinical studies on therapeutic potential of stem cells or stem cells products in peritoneal fibrosis
Gholamreza Pourmand, Iran

UP-014
The Impact of a Simplified Pelvitrainer Curriculum on Basic Laparoscopic Skills of the Junior Urologists and Visceral Surgeons: A Prospective Study Including 20 Residents
Ahmed Samet, Tunisia

UP-015
Up-Regulation of miR-204 May Lead to Increased Apoptosis of Testicular Germ Cells in Pubertal Cryptorchid Rat
Hua Shen, China

UP-016
The Role of Type 1 Angiotensin II Receptor (At1) on the Levels of Transforming Growth Factor B1 (Tgf-B1), Matrix Metalloproteinase 9 (Mmp-9) and Type III Collagen Wistar Rat Bladder Wall with Partial Infravesika Obstruction
Aaron Sihombing, Indonesia

UP-017
Urine Turbulent Shear Stress of Bionic Human Bladder Model Promote E. Coli Biofilm Formation Based on a New Bacterial Biofilm Reactor: An In Vitro Preliminary Study
Guo-Bing Xiong, China

UP-018
Urine Turbulent Shear Stress of Bionic Human Bladder Based on a New Bacterial Biofilm Reactor Stimulated the Expression Differences of E. coli Biofilm Lectins: An In Vitro Preliminary Study
Guo-Bing Xiong, China

UP-019
Renal Denervation Ameliorates Renal Ischemia-Reperfusion Injury and Modulate Micro-RNA Expression in Injured Kidneys in Rats
Xiangyu Zou, China

UP-020
Human Urinary RNA Exosome: Optimizing Methods of Isolations and Sample Preparation for Transcriptome
Andy Zulfiqar, Indonesia
UP-021
Predictors for Prostatic Urethral Involvement with Transitional Cell Carcinoma: A Prospective Study of 100 Patients
Ahmed Abdelaziz, Egypt

UP-022
Usefulness of Evaluative TURB After BCG Induction Cycle in HG pTa Bladder Cancer
Eduardo Albers, Spain

UP-023
Blue Light Cystoscopy with Hexaminolevulinate has a High Negative Predictive Value for Ruling Out Urothelial Malignancies
Amer Amin, Australia

UP-024
Robotic Assisted Radical Cystectomy – An Analysis of Safety and Oncological Outcomes from an Australian Case Series
Amer Amin, Australia

UP-025
Could DNA methylation in the urine be a future biomarker for risk stratification and screening of patients with neurogenic lower urinary tract dysfunction (NLUTD) for bladder cancer?
Apostolos Apostolidis, Greece

UP-026
Pathological Significance of Thrombospondin-5 in Patients with Bladder Cancer: Did its Expression Correlate to Blood Supply of Cancer-Related Microvessels?
Kyohei Araki, Japan

UP-027
CD169-Positive Macrophages in the Draining Lymph Node Predict the Prognosis of Muscle-Invasive Bladder Cancer
Touko Asano, Japan

UP-028
A Spectrum of Malignancy in Adult Bladder Exstrophy
Johann Boaz, India

UP-029
Autophagy Inhibition Enhances Leflunomide-Induced Cytotoxicity in Human Bladder Cancer Cells
Li Cheng, China

UP-030
A Single Centre Experience of Management and Outcomes of Secondary Neoplasm of the Bladder
Omar El-Taji, United Kingdom

UP-031
Muhammad Farhan, Pakistan

UP-032
Open Radical Cystectomy for T4 Stage Bladder Cancer in Frail Patients: A Single Center Experience
Charalampos Fragkoulis, Greece
UP-033
Muscle Invasive Bladder Cancer- Development of a Bladder Cancer Survivorship Tool
Sanchia Goonewardene, United Kingdom

UP-034
Does CxBladder Improve Bladder Cancer Detection and Surveillance? A Prospective, Cross-Sectional Analytic Study
Yilu (Rose) He, Australia

UP-035
Albumin to Globulin Ratio Is Negatively Associated with Preoperative Circulating Tumor Cell Counts in Non-Muscle Invasive Bladder Cancer: A Prospective Study
Haichao Hang, China

UP-036
Survey Based Analysis of BCG Usage Among Senior and Junior Consultants
Amit Kumar Jha, India

UP-037
Use of Fluorescence in Situ Hybridization to Characterize Responders to Intravesical Chemotherapy for BCG-Refractory Bladder Cancer
Arveen Kalapara, United States

UP-038
Gene Amplification and Potential Overexpression of CYP2A6 in an Invasive Phenotype of Bladder Cancer
Kazuhiro Kanemoto, Japan

UP-039
Urinary Bladder Cancer Antigen, in Follow-Up of Non-Muscle Invasive Bladder Cancer
Ayman Kasem, Egypt

UP-040
The treatment of highest grade T1 bladder cancer by immediate radical cystectomy: New standard of care
Slimane Kerroumi, Algeria

UP-041
Utilization of Raman Spectroscopy for Diagnosis of Bladder Cancer: A Systematic Review and Meta-Analysis
Dokyung Kim, South Korea

UP-042
Results from the Management of 180 Cases of T1 Bladder Tumors with a 5 Years Follow up Schedule
Nikolaos Kostakopoulos, Greece

UP-043
Residency of CD103+ CD8+ T Cells Marks Protective Anti-Tumoral Immune Responses in Muscle-Invasive Bladder Cancer Patients
Zheng Liu, China

UP-044
Examining Repeat Resection 2015-2019: Where are we Now?
Theo Malthouse, United Kingdom

UP-045
Does the Presence of Histological Variants in Urothelial Carcinoma of the Bladder Predict Worse Clinical Outcomes After Radical Cystectomy?
Akinori Minato, Japan

UP-046
Pathological Significance of Thrombospondin-1, and -2, and 4N1K-Peptide in Bladder Cancer Tissues
Yasuyoshi Miyata, Japan

UP-047
High Diagnostic Efficacy of 5-Aminolevulinic Acid-Induced Fluorescent Urine Cytology for Urothelial Carcinoma
Wataru Nakata, Japan

UP-048
En-block Resection of Bladder Tumors – Our Initial Experience
Prasant Nayak, India

UP-049
Small Cell Bladder Cancer: Experience from a Tertiary Care Center
Brusabhanu Nayak, India

UP-050
Initial TURBt Experience of Photodynamic Diagnosis with Oral 5-Aminolevulinic Acid Using New Light Source System Aladuck®
Nobuyuki Nishikawa, Japan

UP-051
A Single-Center Study on Clinical Outcomes of Urachal Carcinoma
Kazuo Nishimura, Japan

UP-052
Qualitative Analysis of the Guideline Adherence to Peri-Operative Intravesical Chemotherapy in Non Muscle Invasive Bladder Cancer: A Multi-Centre Study (IPIC: International Post-operative Intravesical Chemotherapy Study)
Tatenda Nzenza, Australia

UP-053
Experience with Photo Dynamic Diagnostics Using Flexible Cystoscope and Bladder Tumor Destruction with Diodelaser in Local Anesthesia in Outpatient Clinic
Recep Ozeke, Norway

UP-054
Population-Based Outcomes Comparing Radical Cystectomy with Trimodal Therapy for Patients Diagnosed with Localized Muscle-Invasive Bladder Cancer
Daniel Phillips, United States

UP-055
Proximity to Oil Refineries and Risk of Bladder Cancer: A Population-Based Analysis
Daniel Phillips, United States

UP-056
Epidermoid carcinoma of the bladder, clinical and therapeutic features: about 58 cases
Anis Rekhis, Tunisia

UP-057
Variation in Tumour Volume of Bladder Cancer Among Histological Subtypes  
Simon Robinson, United Kingdom

UP-058  
A Comparison of Squamous Cancer of the Bladder with Transitional Call Carcinoma of the Bladder  
Simon Robinson, United Kingdom

UP-059  
Association Between Socioeconomic Status and Bladder Carcinoma Stage at Diagnosis: About 168 Patients  
Sataa Sallami, Tunisia

UP-060  
Self-Esteem and Quality of Life in Ostomized Patients due to Bladder Cancer  
Sataa Sallami, Tunisia

UP-061  
Correlation Between Educational Status and Secondary Prevention  
Thomas J. Schnöller, Germany

UP-062  
Place of Lymphadenectomy During Cystectomy in Advanced and Metastatic Bladder Cancer Patients  
Sofiya Semko, Ukraine

UP-063  
The Efficacy and Predictive Factors of Intravesical Therapy with Shanghai BCG Strain in High Risk Non-Muscle Invasive Bladder Cancer  
Yijun Shen, China

UP-064  
A Urine Excrement Shunt Surgery for the Treatment of Severe Metabolic Disorders After Sigma Rectum Pouch of Bladder Cancer  
Hua Shen, China

UP-065  
Does the Clinical Value of PSA Increase During Intravesical Chemotherapy for the Nonmuscle-Invasive Bladder Cancer, As Has Been Observed for Immunotherapy?: A Prospective Multicenter Study  
PhilHyun, Song

UP-066  
Urachal Cysts: A Single Centre Retrospective Analysis of Management  
Brennan Timm, Australia

UP-067  
The Vaginal Tumor: A Rare Urothelial Carcinoma Metastasis Without Intravesical Tumor Recurrence  
Carsten Mathias Ulrich, Germany

UP-068  
Can we Perform More Prostate-Sparing Cystectomy in Muscle Invasive Bladder Cancer Chinese Male Patients?  
Chi Hang Yee, Hong Kong

UP-069  
Choice of Urinary Diversion After Radical Cystectomy: Correlation with Clinical Data and Contemporary Trends in Management
Christos Zampaftis, Greece

UP-070
Fibroblasts Regulate Bladder Cancer Invasion and Metabolic Phenotypes Through Autophagy
Guiming Zhang, China

UP-071
The Outcome of Transurethral Resection of the Prostate in the Patients with Weak Bladder Contractility
Ahmed Abdelaziz, Egypt

UP-072
Natural History and Factors Affecting Urinary Symptoms in Patients with Multiple Sclerosis: A Prospective Study of 120 Patients
Ahmed Abdelaziz, Egypt

UP-073
Should We Remove Indwelling Catheter on Post-Operative Day 1 After Turp?
Lim Tze Ying Benjamin, Singapore

UP-074
Real World Study of the Prostatic Urethral Lift
Peter Chin, Australia

UP-075
Change of Voiding Symptom and Urodynamic Parameters After Holmium Laser Enucleation of Prostate in Patients with Benign Prostatic Hyperplasia: A Prospective Study
DaeSung Cho, South Korea

UP-076
Correlation Between Nitric Oxide and Urodynamics in Men with Bladder Outlet Obstruction
Kang Jun Cho, South Korea

UP-077
The Effect of Operator Experience on HoLEP Performance Beyond the Initial Learning Curve
Alberto Coscione, United Kingdom

UP-078
The Relationship Between Status of Glucose Homeostasis and Prostate Morphology in Aging Chinese Male with Benign Prostatic Hyperplasia: a Cross-Sectional Study
Yu Ding, China

UP-079
TRUS-Guided Prostatic Biopsy: Role of an Additional Biopsy for Bacterial Culture on Treatment of Associated Chronic Prostatitis and Improvement in International Prostate Symptom Score (IPSS)
Hossam El-Tholoth, Saudi Arabia

UP-080
A Prospective Randomized Study to Compare Outcomes Between Alpha-Blockers and Tadalafil 5-mg on IPSS and Prostatic Blood Flow in Men with LUTS due to Benign Prostatic Hyperplasia
Apul Goel, India

UP-081
Association between coronary artery calcium score and prostate volume
Smoking Exacerbates Lower Urinary Tract Symptoms and Chronic Prostatic Inflammation in Patients with Benign Prostatic Hyperplasia
So Inamura, Japan

Efficacy of Add on Therapy After Tamsulosin Monotherapy in Patients with Benign Prostatic Hyperplasia
Tae Wook Kang, South Korea

Clinical Outcomes of Prostatic Urethral Lift for Benign Prostatic Hyperplasia: An Asian Population Study
Jeongho Kim, South Korea

Complications of Diode Laser Enucleation of Prostate
Gurinder Singh Kochhar, India

Efficacy of Mirabegron Addition in Benign Prostatic Hyperplasia with Persistent Overactive Symptoms: A Prospective Study
SeYun Kown, South Korea

International Prostate Symptom Score Voiding-to-Storage Subscore Ratio Can Predict Postoperative Outcomes of Transurethral Resection of the Prostate
JeongKee Lee, South Korea

Pre-Operative Predictors of Outcome Following Male Sling Implant for Post Prostatectomy Incontinence
Lap Yan Leung, United Kingdom

Nocturia may be a Predictive Factor for Restart of Dutasteride
Hiroshi Masuda, Japan

Prospective Multicenter Open Label Trial Investigating a Neutraceutical Complex Novex® in LUTS/BPH
Georges Mjaess, Lebanon

The Long-Term Efficiency of Transurethral Bipolar Plasma Enucleation of the Prostate “Through the Looking Glass” of a Clinical Parallel to Open Prostatectomy – An Eight Years’ Prospective, Randomized-Controlled Comparison in Large Prostate Cases
Bogdan Geavlete, Romania

Ejaculation Preserving Trans-Urethral Bipolar Prostatectomy: Assessing Procedural Aspects and Comparing Resection Versus Enucleation Approaches
Yasser Noureldin, Greece
Vaporesection of the Prostate with Thulium (Tm:YAG) Laser: The Oyster Technique
Yasser Noureldin, Greece

UP-094
Gait Speed, but Neither Muscle Mass nor Strength, Were Associated with Overactive Bladder in Community-Dwelling Elderly Adults: The Sukagawa Study
Kenji Omae, Japan

UP-095
Impact of Permanent Catheterisation and Medical Therapy in the Perioperative Results of Patients Undergoing a Holmium-Laser Prostatic Enucleation
Luis Miguel Quintana Franco, Spain

UP-096
Prostatic Urethral Lift Treatment for Acute Urinary Retention
Mark Rochester, United Kingdom

UP-097
Male Lower Urinary Tract Symptoms in Correlation with Age, Quality of Life scores, Parameters of Uroflowmetry and Prostate Size, A Single Institution Study
Romeo Lloyd Romero, Philippines

UP-098
Direct and Indirect Costs Associated with Benign Prostatic Obstruction Treatment in a Tertiary Referral Center in North of Tunisia Analytic Study About 495 Patients
Sataa Sallami, Tunisia

UP-099
Do Old Patients Really Understand LUTS Assessment Questionnaire? International Prostate Symptom Score as an Example About 260 Patients
Sataa Sallami, Tunisia

UP-100
Urodynamic Analysis and Therapeutic Efficacy Evaluation in Patients with Detrusor Hyperactivity with Impaired Contractility
Hua Chen, China

UP-101
Correlation Study Between Post-Void Residual with Bladder Outlet Obstruction and Detrusor Contractility in Benign Prostatic Hyperplasia
Hua Chen, China

UP-102
Clinical Efficacy of Transurethral Surgery on Patients of Benign Prostatic Hyperplasia with Detrusor Underactivity
Hua Chen, China

UP-103
Bladder α1-Adrenoceptor Subtype Change in Rat Bladder Following Bladder Outlet Obstruction and Subsequent Relief
Ju Hyun Shin, South Korea

UP-104
Metabolic Syndrome is Predictive of Lower Urinary Tract Symptom Improvement After Holmium Laser Enucleation of the Prostate for Benign Prostatic Obstruction
Hong Seok Shin, South Korea

UP-105
Patient Bother from Anejaculation After Transurethral Resection of the Prostate
Karl-Dietrich Sievert, Germany

UP-106
Safety and Efficacy of Bipolar Plasmakinetic Enucleation of Prostate in men with Benign Prostatic Hyperplasia and receiving Anticoagulants and/or Platelet Aggregation Inhibitors: A Tertiary care centre experience.
Alok Srivastava, India

UP-107
Jungyo Suh, South Korea
Development of Machine Learning Based Risk Calculator for Postoperative Complication of BPH Surgery

UP-108
Peri-Prostatic Vascular Dilatation Associates with Lower Urinary Tract Symptoms Due to Benign Prostatic Hyperplasia and Predicts Efficacy of Dutasteride Treatment
Hideki Takeshita, Japan

UP-109
Ambulatory Uroflowmetry: An Insight into Patient's True Voiding Patterns
Catarina Tavares Machado, Portugal

UP-110
Open Prostatectomy for Large Benign Prostates: Assessing Benefit of Post Operative Epidural Analgesia on Outcomes
Albert Ukpong, Nigeria

UP-111
Cross-Sectional Association of Non-High Density Lipoprotein-Cholesterol to High Density Lipoprotein-Cholesterol Ratio and Testosterone Deficiency in Aging Chinese Male with Benign Prostatic Hyperplasia
Yu Wu, China

UP-112
100 TURPs: Retrospective Analysis of Blood Loss to Guide Preoperative Risk Stratification and Group & Save Sampling
Mark Yao, United Kingdom

UP-113
Constipation Can Affect the Voiding Dysfunction of Old Hospitalized Patients
Hyun Sik Yoon, South Korea

UP-114
Association Between Daily temperature Difference and Severity of Symptoms in Patients with Benign Prostatic Hyperplasia: A Nationwide Population-Based Study Using the National Health Insurance Service Database
Hyeong Dong Yuk, South Korea

UP-115
Two-Year Outcomes after Aquablation Compared to TURP: Results from a Blinded Randomized Trial
Kevin Zorn, Canada
Assessment of Minimally Invasive Surgery for Stress Urinary Incontinence on Quality of Life in Women
Aleksandar Argirovic, Serbia

Open Transvesical Repair Of VVF - Single Center Experience
Muhammad Asif, Pakistan

A Novel Approach to Management of Small Persisting VesicoVaginal Fistulas
Abigail Attwell-Heap, Australia

Complex Female Panurethral Stricture Disease Managed with Dorsal and Ventral Dual Buccal Mucosal Graft Onlay Urethroplasty
Michael Chua, United States

Anterior and Apical Prolapse Treatment with a Novel Uterine-Sparing Transvaginal Mesh Procedure
Raquel González-López, Spain

Bladder Pain Syndrome/Interstitial Cystitis in Contemporary United Kingdom (UK) Practice: Outcomes of Phenotype-Directed Management
Anoushka Neale, United Kingdom

Long Term Urinary Continence and Sexual Outcomes Following Successful Vesicovaginal Fistula (VVF) Repair
Sridhar Panaiyadiyan, India

Outcomes of Artificial Urinary Sphincter in Women with Neurologic Stress Urinary Incontinence: Long-Term Follow-Up
Thibault Tricard, France

Examination of Mid-Urethral Sling (MUS) for Elderly Patients Over 75 Years Old
Yasuyo Yamamoto, Japan

Review of Clinical Experience on Biomaterials and Tissue Engineering of Urinary Bladder
Michael Chua, United States

Evaluation in Management of Renal Stone from Inches to Millimeters and From High Mortality to Day Care Surgery
Pratikkumar Shah, India

Percutaneous Nephrostomies in Advanced Pelvic Malignancies Causing Ureteric Obstruction: Prolonging Life or Delaying Death?
Srijit Banerjee, United Kingdom
Whole-Body MRI vs Bone Scan in Staging Prostate Cancer: A District General Hospital Experience
Amerdip Birring, United Kingdom

UP-129
PSMA for the Surgical Oncologist: Interpreting Expression Beyond the Prostate
Matthew Farag, Australia

UP-130
Scrotal Ultrasonography in the Management of Male Infertility – The Experience in a South-Western Nigerian Hospital
Oluwatobi Fasola, Nigeria

UP-131
Initial Experience of Tc-PSMA SPECT in Prostate Cancer
Michael Holmes, New Zealand

UP-132
Treatment of Severe Hemorrhage After Percutaneous Nephrolithotomy by Selective Renal Artery Embolization
Yang Hong, China

UP-133
Reproducibility and Interobserver Variability of the R.E.N.A.L. Nephrometry Score: Senior Versus Junior Radiologists
Nadeem Iqbal, Pakistan

UP-134
Which One is the Easiest and Quickest Scoring System to Predict Percutaneous Nephrolithotomy Outcomes by Junior Surgeons? A Comparison Among Guy’s Stone Score, S.T.O.N.E Score, And CROES Nomogram
Nadeem Iqbal, Pakistan

UP-135
Accuracy of Multi-Parametric Magnetic Resonance Imaging in Diagnosing Clinically Significant (≥Gleason3+4) Prostate Cancer – Our Experience of a UK, District General Hospital
Rachel John-Charles, United Kingdom

UP-136
Diagnostic Performance of Diffusion-Weighted Whole-Body Imaging with Background Body Signal Suppression for Detecting Oligoprogressive Prostate Cancer in Patients Undergoing Androgen Deprivation Therapy
Makoto Kagawa, Japan

UP-137
Computer Generated Tumor Volume and Surface Area as Predictors of Pathological Tumor Grade and Stage in Renal Cell Carcinoma
Arveen Kalapara, United States

UP-138
Efficacy of MRI and Targeted Biopsy in Detecting Clinically Significant Prostate Cancer in Everyday Clinical Practice: A Comparison with Radical Prostatectomy Histology
Lucy-Anne Webb, United Kingdom

UP-139
Pushing the Margins: A Case Series on Tumescent Magnetic Resonance Imaging for Local Staging of Penile Tumours
Jonathan O’Brien, Australia
UP-140
Spontaneous Resolution of Renal Pseudo Aneurysm Following Percutaneous Nephrolithotomy
Mohamed Omar, Egypt

UP-141
Fine Errors of Bladder Wall Thickness Measurement Have a Significant Impact on the Calculation of Ultrasound-Estimated Bladder Weight
Vasileios Sakalis, Greece

UP-142
Urologists Awareness of the Microbiome of the Ileum, is it Actually Sterile?
Abigail Attwell-Heap, Australia

UP-143
Surgical Management and Outcomes of Adult Acquired Buried Penis with and Without Lichen Sclerosus: A Comparative Analysis
Michael Chua, United States

UP-144
Epididymo-Orchitis as the First Presentation of Brucellosis in an Endemic Area
Magdy El-Bahnasawy, Saudi Arabia

UP-145
Could Platelet to Leucocytic Count Ratio (PLR) Predict Sepsis and Clinical Outcomes in Patients with Emphysematous Pyelonephritis?
Mohamed Fadallah, Egypt

UP-146
Urinary Human Papilloma Virus Infection and Bladder Cancer Risk: A Systematic Review and Meta-Analysis
Dario Garcia-Rojo, Spain

UP-147
Blood Stream Infections Following TRUS Prostate Biopsy: A 20-Year Analysis of Bacteriology and Antibiotic Sensitivities
Yilu (Rose) He, Australia

UP-148
Does the Use of Povidone-Iodine Suppository Decrease the Infective Complications of TRUS Guided Prostate Biopsies? A Randomized Prospective Study
Mohamad Hussein Badawy, Egypt

UP-149
BCGosis: A Case Report of Delayed Renal Tuberculosis from Intravesical Bacillus Calmette-Guerin
Sia Kim, Australia

UP-150
Association Between Surgical Site Preparation Agent and Infection Following Flexible Cystoscopy: A Pilot Study
Sia Kim, Australia

UP-151
Prevalence and Clinical Outcome of Extended-Spectrum Beta-Lactamase Pathogen Acute Cystitis
Jae Heon Kim, South Korea
Efficacy of Intravesical Botulinum Toxin A as a Treatment to Relieve Symptoms in Adult Patients with Interstitial Cystitis: A Systematic Review
Isa Mohamud, United Kingdom

Should Nephrectomy Be Done for Non-Functioning Kidneys due to Genitourinary Tuberculosis After Receiving Anti-Tubercular Therapy? Results of a Prospective Cohort Study
Pradeep Prakash, India

Granulomatous Prostatitis: About 12 Cases
Anis Rekhis, Tunisia

Retroperitoneal Ascariasis: A Case Report
Sid Sergio, Philippines

What is the Factor Influencing Erectile Dysfunction After Acute Myocardial Infarction?
PhilHyun Song, South Korea

Risk Stratification and Prediction of Major Morbidity in Septic Patients with Upper Urinary Tract Obstruction Using the Sepsis-1 Definition
Yi Quan Tan, Singapore

Fungal Scrotal Abscess in the Immunocompromised Diabetic
Brennan Timm, Australia

Emphysematous Pyelonephritis: Management with Urinary Derivation versus Nefrectomy, a Multicentric Study
Hegel Trujillo Santamaria, Mexico

Effect of Hormonal Manipulation Using Clomiphene Citrate Prior to Microdissection Testicular Sperm Retrieval
Abdulmalik Adar, Saudi Arabia

Yield of Microsurgical Varicocelectomy in Severe Oligospermia
Abdulmalik Adar, Saudi Arabia

Monomorphic Teratozoospermia: Genetics and Fertility Prognosis
Nouha Bouayed Abdelmoula, Tunisia

The Influence of Multiple Occupational Exposure on Male Reproductive Function: A Cross Study Among Infertile Men in Tunisia
Nouha Bouayed Abdelmoula, Tunisia
Younger Age is Associated With Better Outcomes After Varicocelectomy for Infertility
Jorge Correia, Portugal

Enhancement of Sperm Retrieval in Non-Obstructive Azoospermic Patients Using Conventional TESE: Technical Optimization and Hormonal Stimulation
Magdy El-Bahnasawy, Saudi Arabia

Prevalence of Chromosomal Abnormalities Among Non–Obstructive Azoospermic Patients, Tabuk Experience
Magdy El-Bahnasawy, Saudi Arabia

The Contribution of Modified Marmar Technique to Achieve Improvement in Spermiogram and to Achieve Pregnancy in Couples with Infertile Men with Varicocele
Christofis Kyprianou, Greece

Semen Improvement in Patients with Varicocele after Ligation of Internal Spermatic Veins by Subinguinal Approach: A Study Of 50 Patients
Stavros Lambrou, Greece

The Effect of Sildenafil on Semen Parameters: A Randomized Double-Blind Cross Over Study
Gholamreza Mokhtari, Iran

Nano Curcumin Effect in Nuclear Factor Kappa B (NFκB), Tumor Necrosis Factor-α (TNF-α) and Interleukin -10 (IL-10) in Preventing Antisperm Antibody
Didit Pramudhito, Indonesia

Role of Erythropoietin to Improve Spermatogonium, Sertoli and Leydig Cells, Apoptosis Germinal Epithelium Cells, and Sperm Motility on Wistar Rats After Ligation Release of Vas Deferens: A Pilot Study
Medianto Purnomo, Indonesia

Management of Stone Disease in Pregnancy
Rajab Ali, Pakistan

Staghorn Calculi Due to Uric Acid
Vishwanath Magdum, India

Our Experience of Combined Energy Source with Suction Device Through PCNL for Staghorn Calculi
Vishwanath Magdum, India

Review of the Indications for Ureteric Stents use Post Ureterorenoscopy
Branimir Penev, United Kingdom
UP-180
Primary Ureterocalycostomy for Complicated Upper Urinary Tract Obstruction in Congenital Solitary Functioning Kidneys: Challenging but Effective
Priyanka Rai, India

UP-181
Crossed Renal Ectopia in Adult: Clinical, Radiological and Evolutionary Findings in 20 Patients
Sataa Sallami, Tunisia

UP-182
Nephrectomy Overuse of for Benign Condition: Medico-Legal Reflections About 14 Cases
Sataa Sallami, Tunisia

UP-183
Hypoxia Promotes Extracellular Vesicle Genesis from Mesenchymal Stem Cells and Enhances its Efficacy in Alleviating Renal Ischemia-Reperfusion Injury
Xiangyu Xou, China

UP-184
Open Nephrectomy versus Laparoscopy: Comparative Retrospective Study of 100 Cases
Skander Zouari, Tunisia

UP-185
Comparison of Acute Phase Response in Patients Undergoing Open Versus Laparoscopic Nephrectomy
Mohamed Marzouk Abdallah, Egypt

UP-186
Prevalence of Histopathological Subtypes of RCC in a Middle Eastern Population: A High Prevalence of Chromophobe RCC
Nassib Abou Heidar, Lebanon

UP-187
Validation of the RENAL Nephrometry Score for Tumor Complexity and its Concordance with the Surgical Approach Performed and Application of Nephron Sparing Surgery
Nassib Abou Heidar, Lebanon

UP-188
Quantitative Proteomic Analysis of Renal Cell Carcinoma
Omer Acar, Turkey

UP-189
Is Pre-Operative Neutrophil-Lymphocyte Ratio a Red Flag Which Can Predict High Risk Pathological Characteristics in Renal Cell Carcinoma?
Rajesh Kumar Reddy Adapala, India

UP-190
Transurethral Intussusception Technique of Complete Distal Ureterectomy with Bladder Cuff in Females with Upper Tract Urothelial Cell Carcinoma: A New Technique
Mohsen Alemi, Iran

UP-191
Bladder Recurrence of Upper Urinary Tract Urothelial Cell Carcinoma After Nephroureterectomy – A Clinicopathological Study
Johann Boaz, India

UP-192
Preliminary Results of Phase 1 Clinical Trial of High Dose Seleno-L-Methionine in Sequential Combinations with Axitinib in Previously Treated and Relapsed Clear Cell Renal Carcinoma Patients
James A. Brown, United States

UP-193
Prognostic Significance of Preoperative Prognostic Nutritional Index in Patients Undergoing Nephrectomy for Non-Metastatic Renal Cell Carcinoma
DaeSung Cho, South Korea

UP-194
The Current Landscape of Three-Dimensional Printing in Uro-Oncology
Jasmine Coles-Black, Australia

UP-195
A Large Contemporary Experience of Renal Tumors in Young Adults and Adolescents: Clinico-Pathological Profile and Long Term Survival Patterns
Rohit Dadhwal, India

UP-196
17p Deletions are Associated with an Aggressive Tumor Phenotype, Prevalence of Distant Metastases and Worse Prognosis in Clear Cell Renal Cell Carcinoma
Till Eichenauer, Germany

UP-197
8p Deletions in Renal Cell Carcinoma are Associated with Unfavorable Tumor Features and Poor Overall Survival
Till Eichenauer, Germany

UP-199
Outcomes of Radical Nephrectomy with Inferior Vena Cava Thrombectomy in the Management of Renal Cell Carcinoma
Harshit Garg, India

UP-200
RENAL Score as a Predictor of Histological Results in Patients Undergoing Laparoscopic Partial Nephrectomy
Diego Gavián, Chile

UP-201
Nephron Sparing Surgery for Anatomically Difficult Cases, An 8 Years Review
Sanchia Goonewardene, United Kingdom

UP-202
Nephron Sparing Surgery and Renorrhaphy- Outcomes from a Modification of Technique
Sanchia Goonewardene, United Kingdom

UP-203
Low Preoperative Serum Cholesterol Level Predicts Unfavorable Oncologic Outcome Among Patients with Non-Metastatic Clear Cell Renal Cell Carcinoma of ≤ 7 cm on Preoperative Imaging
Won Sik Ham, South Korea

UP-204
Survival Analysis of Kidney Cancer in Disseminated Stage
Alberto Hernando Arteche, Spain

UP-205
Long Term Outcomes for the Modified Transurethral Technique in the Management of the Distal Ureteric Stump during Radical Nephroureterectomy
Venetia Hoe, Australia

UP-206
HIF/PHF8/β-Catenin Axis Identifies a Therapeutic Target in Clear Cell Renal Cell Carcinoma
Jun Jiang, China

UP-208
Non-Clear Cell Renal Cell Carcinoma: 25 Years of Experience
Alexey Kalpinskiy, Russia

UP-209
Laparoscopic Partial Nephrectomy: 15 Years of Experience
Alexey Kalpinskiy, Russia

UP-210
Significance of Percutaneous Biopsy in the Clinical Management of Renal Masses
Shanmugasigamani Kannan, United Kingdom

UP-211
A Retrospective Long-Term Multicenter Follow-Up Study of Risk Factors for Prognostic Survivals in Non-Metastatic Renal Cell Carcinoma Underwent Curative Nephrectomy
Sung Han Kim, South Korea

UP-212
The Impact of Perioperative Blood Transfusion on Oncologic Outcomes in Patients with Non-Metastatic Renal Cell Carcinoma Treated with Surgery
HyungSuk Kim, South Korea

UP-213
Experience Matters More Than Renal Nephrometry Score in Robotic Partial Nephrectomy
Anant Kumar, India

UP-214
Feasibility of Omission of Cortical Renorrhaphy in Robotic Assisted Partial Nephrectomy
Anant Kumar, India

UP-215
Hyaline Casts in Renal Tubular Ducts Is Useful Predictor for the Residual Renal Function after Nephrectomy in Patient with Renal Cell Carcinoma
Suhei Kusano, Japan

UP-216
X-Capsular Incision and Tumor Enucleation (X-CITE)-Technique: A Novel Method Maximizing Renal Parenchymal Preservation for Completely Endophytic Renal Tumors
Amir Lebastchi, United States

UP-217
A Critical Evaluation of the Prognostic Value of Hematological Markers in Non-Metastatic Clear Cell Renal Cell Carcinoma Treated with Nephrectomy
Alvin Lee, Singapore

UP-218
Comparison of Risk Factors for Development of Proteinuria After Radical Nephrectomy for Renal Cell Carcinoma Assessed by Glomerular Filtration Rate per Functional Renal Volume
YoungGoo Lee, South Korea

UP-219
To Investigate the Relationship Between the Duration of Initial Diagnosis and Urothelial Carcinoma/Renal Cancer with Dialysis Patients in Taiwan
Chiao-Chiing Li, Taiwan

UP-220
Prognostic Value of Hemoglobin in Metastatic Renal Cell Carcinoma Treated with Tyrosine Kinase Inhibitors: A Systematic Review and Meta-Analysis
Yu Liu, China

UP-221
