

Friday, October 16  
1500-1630

**Moderated ePosters 5**  
**Bladder Cancer: Various Topics II**

**MP-05.01**

Risk Group Stratification in Patients with Micropapillary Bladder Cancer Treated with Radical Cystectomy and/or Neoadjuvant Chemotherapy  
Stephen Williams, USA

**MP-05.02**

Analysis of the Prognostic and Predictive Value of Emmpin, Survivin and Ki67 in Patients Enrolled in Two Randomized Studies of Cystectomy with or without Neoadjuvant Chemotherapy  
Per-Uno Malmström, Sweden

**MP-05.03**

Does Carcinoma-In-Situ (CIS) On Final Pathology Predict Poor Outcome For Non-Muscle-Invasive Bladder Cancer (NMIBC)?  
Ahmed Abd El Latif, Egypt

**MP-05.04**

Assessment of Psoas Muscle Volume Loss as Predictor of Response and Outcomes after Neoadjuvant Chemotherapy and Radical Cystectomy in Muscle-Invasive Bladder Cancer  
Homayoun Zargar, USA

**MP-05.05**

Invasive (T2) Bladder Tumors and Radical TUR  
Valeri Mariyanovski, Bulgaria

**MP-05.06**

Complications and Outcome of Radical Cystectomy in Fragile Patients  
Sheng-Wei Lee, Taiwan

**MP-05.07**

Surgical Stress Response and C-Reactive Protein Concentration: Comparison between Robot-Assisted Laparoscopic Cystectomy and Open Mini-Laparotomy Cystectomy  
Pernille Skjold Kingo, Denmark

**MP-05.08**

Validation of Major Prognostic Models for Metastatic Urothelial Carcinoma Using a Multi-Institutional Cohort of the Real World  
Satoru Taguchi, Japan

**MP-05.09**

The Impact of Female Gender on Bladder Cancer Specific Death Risk after Radical Cystectomy: A Meta-Analysis of 27912 Patients  
Shenghua Liu, China

**MP-05.10**

Final Pathologic Stage after Neoadjuvant Chemotherapy and Radical Cystectomy for Bladder Cancer: Does pT0 Predict Better Survival than pTa/pTis/pT1?

Homayoun Zargar, Canada

**MP-05.11**

Significance of Computer Tomography Virtual Cystoscopy in Diagnosis of Carcinoma of the Bladder

Ahmed M. Kamal, Egypt
