

Saturday, October 17
1500-1630

Moderated ePosters 12
Prostate Cancer: Advanced Disease

MP-12.01

Cumulative Incidence and Predictive Factors of Radiation Cystitis in Patients with Prostate Cancer: A Retrospective Analysis

Carlos Martins-Silva, Portugal

MP-12.02

Results of Surgical Treatment of Prostate Cancer Patients with Positive Lymph Nodes: Prognostic Factors of PSA Relapse and Disease Progression

Boris Alekseev, Russia

MP-12.03

Evaluation of Detection Rate of 68Ga-PSMA PET/CT for Biochemical Recurrence after Radical Prostatectomy

Marc Paffen, Australia

MP-12.04

Results of Salvage Extended Lymph Node Dissection in Patients with Low Volume Lymph Node Recurrence after Primary Local Treatment

Boris Alekseev, Russia

MP-12.05

The Role of Androgen Deprivation Therapy in Prostate Cancer Patients with Non-Metastatic Disease Recurrence after Local Curative Treatment: A Systematic Review

Roderick van den Bergh, Australia

MP-12.06

Long-Term Morbidity and Oncological Outcomes of Salvage Cryotherapy of Radio-Recurrent Prostate Cancer

Joseph L. Chin, Canada

MP-12.07

Oncological Outcomes of Salvage High Intensity Focused Ultrasound of Radio-Recurrent Prostate Cancer: Results of a Prospective Phase II Clinical Trial

Joseph L. Chin, Canada

MP-12.08

Update on Androgen Deprivation Therapy and Adjuvant Metformin (ADMET) Trial for Men with Treatment Naïve Metastatic Prostate Cancer

Handoo Rhee, Australia

MP-12.09

Intermittent Androgen Deprivation with the Gonadotrophin-Releasing Hormone Antagonist Degarelix in Men with Biochemical Relapse of Prostate Cancer

E. David Crawford, USA

MP-12.10

A Pooled Analysis of Adverse Urological, Musculoskeletal and Cardiovascular Events with Different Androgen Deprivation Therapy Modalities

E. David Crawford, USA

MP-12.11

Cardiovascular Status and Events in Patients with Prostate Cancer Treated with a Luteinising Hormone-Releasing Hormone Agonist or Degarelix: A Comparison of USA/Canada vs. Europe

E. David Crawford, USA

MP-12.12

Differential Effects of Gonadotropin-Releasing Hormone Agonists and Antagonists on Serum Alkaline Phosphatase Levels in Men with Prostate Cancer

E. David Crawford, USA

MP-12.13

Prognostic Value of Computer-Aided Diagnosis System for Bone Scan among Men with Docetaxel Treatment for Metastatic Castration-Resistant Prostate Cancer

Koichi Uemura, Japan
