

URCADE

Tournament

SIU Competition Rules

- Participants are not eligible to win a prize if they have already won the same prize in a previous competition
- Prizes are non-transferable and cannot be exchanged for alternate prizes of same value
- Participants can only win 1 prize per competition and should not use aliases/alternate email addresses to claim more than 1 prize. In the event that a contestant has intentionally disrupted the competition results, they will be disqualified
- Should the competition rules stipulate that the prize will be selected via a random draw, no additional prizes will be awarded, regardless of the contestant's status or rank in the game or competition.
- Results are considered final at time of competition end, as recorded by the SIU Central Office. No revisions will be made to results following announcement of competition/content results, regardless of connection issues or internet delays on the participants' end.
